

1 (December 23, 2002)
2 After the initial planting area weed control, soil placement, grading, and the
3 installation of irrigation lines are completed, and prior to planting, all
4 designated planting areas shall be covered with compost.
5
6 Prior to placement of compost, the application methods shall be approved
7 by the Engineer.
8
9 Compost shall not be placed when a condition exists, such as frozen or
10 water saturated soil, that may be detrimental to successful application or
11 soil structure.
12
13 Grade AA compost shall be used when applied within 10 meters of a
14 wetland and stream sides. Grade A compost may be used for all other
15 locations.
16
17 The Contractor shall notify the Engineer a minimum of five working days
18 prior to the start of compost work.
19
20 Compost shall be uniformly and evenly placed in all designated areas at the
21 rate of *** \$\$1\$\$ *** cubic meters per acre.
